

## **INSTITUTIONAL DISTINCTIVENESS**

The Institute has many distinctive best practices, the student support system stands out among them. Some of the unique student support systems are scholarships, free transportation, free incubation facility, free hostel for needy & many more.

VVCE Scholarships & free transportation are described below:

1. VVCE Scholarships:

One of the best practices of our Institute is providing the VVCE scholarships to the needy students. Institute earmarked Rs.31 lakhs to give away the **VVCE scholarships** in the academic year 2020-21, and 64 needy students were shortlisted and each was given Rs.25,000/- . As planned in the previous year, Institute has also introduced “**Tuition Fee Waiver**” scheme for 36 students with poor financial condition. This need based scholarships has helped the students to continue their education without any hurdles.

2. Free Transportation: Considering the plight of the students coming from rural areas, the Institute has deployed two buses to fetch students from suburb bus stand to the Institute during peak hours. This has immensely helped students to reach the Institute in time.

3. Free Incubation facility: The Institute has well-furnished over 2500 sq.ft space for student startups. There are 7 student startups functioning at present.
